De Havilland Expert Wanted!

After the success of the reprinting of the “Hatfield & Its People” booklets with added indexes, we are hoping to improve on our popular best seller “The Early Days of de Havilland” written by Don Lawrence. Not only will the quality of the printing and photographs be improved we are also aiming to add extra articles that have appeared in past newsletters. We need a person to help us decide what we should include and what we should not.
